DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-2 and 4 are rejected under 35 U.S.C. 102(b) as being anticipated by JP'337.

JP'337 teaches a catalyst composition with a perovskite-type structure with the formula $\text{SrTi}_{0.9}\text{Nb}_{0.05}\text{Pt}_{0.05}\text{O}_3$. See [0037] of the provided machine translation.

Allowable Subject Matter

Claims 8-10 are allowed.

Claim 3 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The following is a statement of reasons for the indication of allowable subject matter:

Claim 3 requires that $y = 0$, however, the closest prior art (JP'337) requires that the corresponding element be present (and thus y is not 0), and does not suggest removing said element.

JP'337 also does not teach or suggest the compositions of claims 8-10.

Response to Arguments

Applicant's arguments filed 10/21/2008, with respect to claims 8-10 have been fully considered and are persuasive. The rejection of claims 8-10 has been withdrawn.

Applicant's arguments with respect to claims 1-4 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Villa '267, Lauder '258, Kuimura '472 and '147, Lyons '298, and Shelnutt '590 teach perovskite type catalysts similar to that of the instant invention.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 1793

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
